Carlos Gabriel
Senior Software Developer

Goal

Tech Lead| Software Architect | Senior Fullstack Engineer | Senior Backend Engineer | Mobile Developer

Profile

I have a Postgraduate degree in Software Architecture, a Master's degree in Artificial Intelligence in Healthcare, a Bachelor's degree in information systems, an Electromechanical Technician. I have more than 11 years of professional experience. I have experience and capacity for the roles of Mobile Developer, Fullstack Developer, Tech Lead, Backend Developer, Software Engineer, always working as a team with excellence and strong leadership.

I developed interest in the area of development of information systems through the use of Excel. From this experience I went to get more information about the development area and I went through several technologies like Java, PHP, HTML, CSS, Java Script, databases, C#.

All this way has consolidated a career of Developer Full Stack (who loves front end, and knows the importance of UI/UX in the system) and Mobile Developer multi platform development expert with MAUI/Flutter throughout its application life cycle.

Education | Graduation | Qualification

Master of Artificial Intelligence in Health – Cemp Education – Studying

Postgraduate Distributed Software Architecture – Pontifical Catholic University – 2019

Bachelor's degree in information system – University Center of Southern – 2017

Electromechanical Technician – CEFET-MG – 2007

English Advanced | Portuguese Fluent

Experience

Xpand-It – Dec 2021 — Present
Role: Mobile Senior Developer

Azure Administrator | Scrum Master | Sitecore Developer | Microservice Architecture | Senior FullStack Developer | Support team junior development.

Bee Engineering – May 2021 — Nov 2021
Role: Xamarin Developer

Development of new social network using Xamarin.Android | C#, Git, Xamarin.Android, AppCenter | Whiz – Apps no Google Play.

Glic - Quasar – Jan 2018 — Jun 2022
Role: Mobile Architect – Freelancer

Application development for the health sector (diabetes) | Technical analysis of new features | Planning and design of new features | Legacy maintenance | Mobile application architecture | Mobile application devops (iOS/android) | Agile practices | C#, Xamarin.Forms, Xamarin.iOS, Xamarin.Android, AppCenter, Bitbucket, GIT, Devops, Agile.

Qualitab – Oct 2019 — Nov 2021

Role: Mobile Architect – Freelancer

Development of mobile applications with Flutter | Definition of mobile applications architecture with Flutter | Maintenance on mobile applications with Flutter | Maintenance in mobile applications with Cordova | Definition of devops strategies for mobile applications | Implementing devops for mobile applications | Flutter, Cordova, Git, GitLab, Devops(fastlane), Mobile Architecture.

SGA Tecnologia Inteligente – Jun 2020 — May 2021
Role: Tech Lead, Developer Specialist
